

## The Photography Group (Kevin Lucas)

The June outing for the Photography Group was a revisit walk around Battersea Park and Battersea Power Station. We last did this walk in October 2021 and it has to be said the Park looked far better maintained then than it did on our latest walk. The day was overcast which may have had something to do with things, but it did seem rather unkempt which was great shame.

The Power Station, however, was spectacular, and two of us ventured to the top of the north-west chimney, a height of 109 metres delivering 360-degree views over London.

Due to holidays the next Photography Group event will be in August, and the next full outing will be in late September. Further details will be published in the next couple of Newsletters.

To join the Photography Group, no special expertise or equipment is normally required and members with no interest in photography are welcome to join us purely for the outings. We have visited some very interesting locations in London.
